**IMPORTANT**

**FIRST**

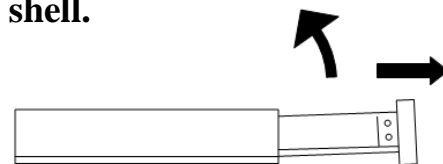

**Screw all 4 legs onto the  
table.**

3

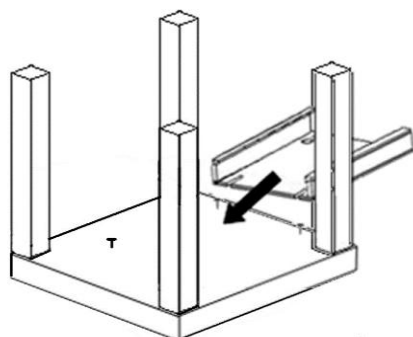

**Remove the drawer from the  
shell.**

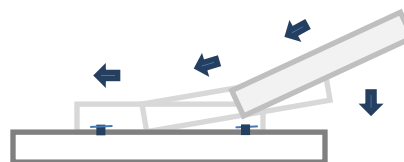

**The drawer hits the travel-  
limiter.**

**Lift the drawer up and pull out to  
remove.**

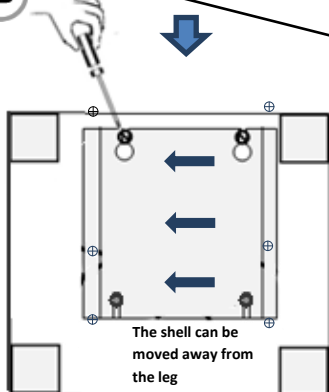

4

Slide the SD shell onto the table base under the screws at the back and through the front keyholes to the channel limits.

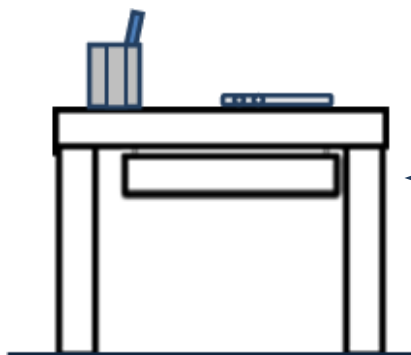

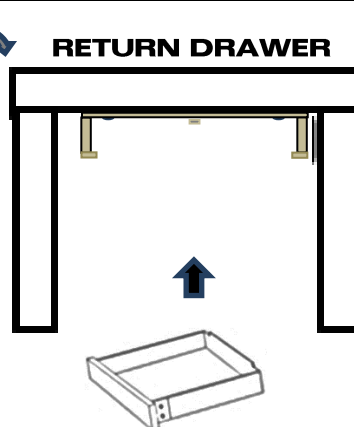

5

**Gently tighten** all 4 screws 'pinch-tight'.

**Do not over tighten screws** to damage / thread holes.

**A5 only storage.** Cannot store standard BS 1363 electrical plugs (Type G IEC 60083)

Thank you for using the SD

## Advisory

- **Keep any small parts, screws and tools away from children.**
- **Take care when using tools.**
- **Take your time fitting the SD.**
- **Do not over-tighten screws.**

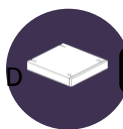

## General

The sd – Space Drawer © is not an IKEA (the company) product but can be added to and used with IKEA bookcases and tables (BILLY + LACK).

The SD is classed as a ‘furniture add-on’ and as an ‘underneath shelf drawer’. The SD is independently made, first created in December 2012.

Made in London U.K.

Made from MDF wood, CNC cut, part primed (front, sides).

All original - Manual and sd created by William Lutterodt – sd Mk 1 + 5

The Space Drawer (**sd**) is always evolving.

Picture: Gillis Lundgren, creator of the BILLY bookcase.
